

Data Cleaning Notes

- Checked for duplicate rows to avoid double counting
- Checked for missing values by reviewing incomplete records
- Standardized date format to yyyy-mm-dd
- Checked if text columns (Region, Category, Product) are clean
- Checked for extra spaces and standardized capitalization
- Checked for numeric columns stored as text into numbers
- Checked for negative and unrealistic values
- Created Month and Year columns for time analysis
- Calculated Profit_Margin to evaluate profitability
- Saved cleaned dataset as cleaned_sales_data.xlsx
